: Selection of Contractor for Local

Pacility

l. Of the nine bidders invited to submit proposals for providing services in a local facility for OEL-OSA use, the OSA evaluation ranks

capability related to ECM. In view of some of the management and administrative difficulties experienced OSA recommends by | pe considered for award of that An important advantage in this choice the contract. has demonstrated significant would be that experience in both the ELIMT and ECM fields. Consequently, the needs of both OEL and OSA could be served jointly. Similar experience in both fields to the extent is not available in the demonstrated by other companies solicited.

- 2. It is recognized that OEL would have the larger proportionate investment in the facility and, consequently, a larger voice in the selection of the contractor. OSA will accept the OEL choice of any contractor selected.
- contract from EAD Countermeasures funds for the fourth quarter of FY-64, assuming the contract is effective about 1 April 1964. It is anticipated that the OSA participation will be at about the same quarterly rate for FY-65.

NRO review(s) completed.
